Remanufactured or new, it's what we do.

Driveshafts. A choice of new, or quality remanufactured in the heart of the UK.

Unsurpassed quality range

At Shaftec, we've been remanufacturing Driveshafts since 1979, so we know a thing or two about it.

The Shaftec range of top quality Driveshafts- both new and remanufactured, consists of over 5,300 part numbers and offers 95% availability of the most popular vehicles on the road, from stock.

Our remanufactured range is produced 100% in the UK and is now the widest range available in Europe.

We also offer an Express 'Recon & Return' service should an unusual part not be in stock. This unit will be dispatched within 24 hours of arrival and usually received by the customer within 48 hours of dispatch, to the majority of the EU.

Our new range is sourced only from premium suppliers with quality conforming to ISO9001/2000 QS9000 & vda6.1 Quality Standards.

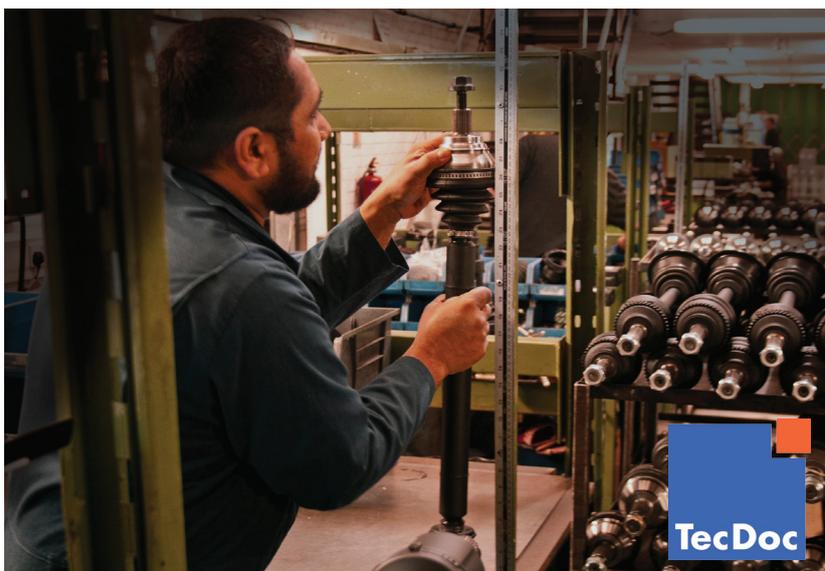

Remanufacturing as it should be

To us, remanufacturing isn't just a poorer substitute for 'new'- it's a process which results in components that are as good as new and perform that way too.

Take our range of Driveshafts. Each one is stripped right back to its bare bones, inspected to ensure that there are no defects, refurbished to the original state and then reassembled by hand using all new components.

That means 100% new ancillary parts, including new CV Joints, boots, grease, and clips - everything is completely renewed to the highest quality of ISO 9001/2000. After assembly, each individual Driveshaft is 100% rigorously inspected - that's why we're confident to be able to supply a 24 month, 38,000 km. warranty.

To find out more about the full Shaftec range of Brake Calipers, Steering Racks, Steering Pumps and Driveshafts, as well as our new Driveshafts, CV Joints, Steering Pumps, CV Boots and Steering Gaiters, contact us by e-mail at info@shaftec.eu or visit us www.shaftec.eu
